Financial Programs for Undocumented Students

ASSET

This law allows undocumented students who meet all eligibility requirements to qualify for in-state tuition.

1. Eligible if attended a Colorado high school for **3 years** immediately before earning a high school **diploma or GED in Colorado**. As long as a student attended 6 academic terms, not necessarily in 3 consecutive academic years—and then graduated or received a GED—the student would satisfy the high school requirement.
2. Been **admitted** (not enrolled) to a Colorado state-funded college **within 12 months** of graduating or earning a GED.
3. Complete the **Colorado Opportunity Fund (COF)** application, including the **Affidavit**, stating that the student has applied for legal presence in the US OR will apply for legal presence in the US as soon as they are able to do so.
